### SUMMARY

Ambitious front-end developer with over two years of hands-on experience specializing in web development using JavaScript, TypeScript, and React. Adept at creating responsive, user-friendly web interfaces and passionate about continuous learning and growth. Actively seeking an exciting role within a collaborative and innovative team.

### EXPERIENCE

**manga.ovh** – *front-end react developer*

OCTOBER 2021 – JANUARY 2024

Front-end Tech Stack: TypeScript, React, Remix, MUI

- Engaged in creating UI and UX design of the site. Converted mockups into responsive, dynamic React components. Rewrote the front end to new technology, increasing LCP by 20 and FID by 10 points. Reworked the key pages, eliminating memory leaks and optimising re-renders, which led to a dramatic performance increase.
- I gained a lot of valuable qualities and skills from this project: learning new tools quickly, fixing bugs, refactoring code, thinking over the site architecture and working with TypeScript, Next.js, Remix, GraphQL, Rest API, Git plus many React libraries.

### TECHNICAL SKILLS

- Front-end: HTML5, CSS3, JavaScript ES6+, TypeScript, React, Next.js, Remix, Tailwind
- Back-end: Golang, Fiber
- Database: Postgres, Prisma, Gorm
- Tools: RESTful API, GraphQL, Git, Docker, Linux
